I was aware of Stephanie.

Lisa – Could you please let me know if Christine is coming to relieve Stephanie or in addition too. Also, When are both coming into Durango? Lastly, was it Marty McComb that ordered them both up?

Thanks all!

Hi Ben, as of this morning, we are sending to people – Stephanie Wenning – until Sunday and Christine Wagner – for 2 weeks. Can you provide the accounting info and I will have it set-up in their pp.

Thanks.lw

R6 is providing support. We have about 20 employees deployed from Region 6.

Are all regions providing support? If not, do we know which regions are providing support?

**Subject:** Question for the regions responding to the Mine spill issue

It is my understanding the R8 Lab director had a call with all the regional lab directors yesterday asking for some support. I guess at least region 1 will be doing some sample testing (which we are glad to do and provide support to one of our fellow regions). I just want to make sure we for tracking purposes or any other reason should not be having folks charge time/hours or materials for any support we give. To make it clear NOT ABOUT THE TIME/COST, but as we all know it is much easier to track and code from the on start VS trying to go back and get people to figure out how many hours or what materials they spent on doing an type of clean up. I know this is getting a bunch of press so was not sure if they are far along to make a determination but wanted you to be aware calls are being made for assistance and at this time we are not coding or doing anything different as we provide this help.
